in "International Economic Relations"
for applicants for the degree of Doctor of Philosophy
in specialty 292 - "International Economic Relations"

Developed by: Doctor of Economics, Prof. O. Dovgal,
Doctor of Economics, Prof. I. Matyushenko,
Ph.D., Docent N. Kazakova,
Ph.D., Docent M. Shuba.

General Terms

The program is the main scientific and methodical document that regulates the content of the additional entrance exam for applicants, whose master's degree does not correspond to the specialty 292 - "International economic relations". It is aimed at ensuring a comprehensive approach to the assessment of theoretical and practical training of applicants, to identifying the level of their knowledge of development issues and the current state of international economic relations.

The purpose of the program is to determine the scope and required level of theoretical knowledge and practical skills of the applicant.

The program involves in-depth knowledge of the material regarding the current state of development of international economic relations and the main problems existing in this field.

Applicants to the postgraduate course in the specialty "International Economic Relations" when taking the additional entrance exam must demonstrate knowledge of the state of research on international economic relations and the world economy, the ability to apply basic knowledge in the field of international economic relations.

The additional exam has a written form.

Form of examination tasks - tests: 40 test tasks x 5 points for each correct answer.
